

Auto Delivery:

Our high-tech auto oil delivery program is a state-of-the-art computer system that uses daily temperature readings, your tank size, summer-winter hook-up factor, and consumption to determine a delivery date to fit each individual account. Payment options for Auto-Delivery operate through either budget plans, credit card payments, or mail-in personal check.

Will-Call Delivery:

It is not necessary to sign contracts or commit to yearly agreements with 7 OIL. We would love for all of our customers to work with us on a contractual basis, but we will deliver to anyone, no strings attached! 7 OIL accepts cash, all major credit cards, or checks. 7 OIL is here to accommodate everyone's needs.

Budget Plans:

7 OIL budget plans are highly recommended to anyone who is trying to manage their oil delivery costs as efficiently as possible. Your budget payment is determined by your winter season consumption multiplied by the average price of the oil. Your cost is then divided among monthly payments. The amount of payments you choose to pay will influence how high or low your monthly payments will be.

General Conditions & Exclusions

1. Term & Account Status

This Agreement is valid for one (1) year and renews automatically unless terminated by either party. Coverage becomes effective following inspection and approval of the heating system. The Agreement remains active only while the customer's account is in good standing. 7 Oil Company reserves the right to suspend service or delivery for accounts not in good standing. If the Agreement is canceled after a seasonal tune-up has been performed, the customer is responsible for the applicable retail cost of that service.

2. Plan Eligibility

The Total Comfort Plan is available only to customers who purchase their heating oil from 7 Oil Company and maintain their account in good standing. Discontinuing fuel purchases automatically terminates the Total Comfort Plan.

3. Scope of Coverage

This Agreement covers only the specific parts and components listed within the selected service plan. All other repairs, services, or equipment not expressly included are billed at prevailing rates. Excluded items include, but are not limited to: Oil storage tanks and related piping, environmental cleanup or tank-related damage, boiler or furnace piping, air-conditioning or heat pump systems, water damage or flue-related damage, nuisance service calls (including out-of-oil, switches off, thermostat settings, etc.) and service calls resulting from an out-of-oil condition are not covered under any Service Agreement.

4. Fuel Supply & Automatic Delivery

Customer acknowledges and agrees that maintaining an adequate fuel supply remains the customer's responsibility at all times. 7 Oil Company's automatic delivery program is provided as a convenience service. Delivery timing is estimated using historical usage data, weather projections, and other available information. These estimates do not constitute a warranty or guarantee of uninterrupted fuel supply. Customer agrees to monitor fuel levels periodically and to notify 7 Oil Company of any changes that may affect fuel consumption, including changes in occupancy, thermostat settings, renovations, equipment, or extended absences. If a property will be vacant during the heating season, customer agrees to notify 7 Oil Company in advance. Customer further acknowledges that delivery may be delayed due to weather, road conditions, supply shortages, equipment availability, safety concerns, or property access limitations. To the fullest extent permitted by law, 7 Oil Company shall not be liable for damages resulting from a fuel run-out condition, delayed delivery, or lack of fuel oil, including but not limited to freeze damage, burst pipes, water damage, property damage, environmental damage, or consequential losses, regardless of delivery method.

5. Access & Conditions Beyond Control

Customer is responsible for providing safe and reasonable access to the fuel tank and heating equipment, including maintaining accessible driveways, removing snow and ice, and securing pets. 7 Oil Company is not liable for delays or inability to provide service due to severe weather, Acts of God, labor disruptions, government regulation, utility interruption, part shortages, unsafe conditions, or inaccessible property.

6. Limitation of Liability

To the fullest extent permitted by law, 7 Oil Company shall not be liable for incidental, special, indirect, or consequential damages. Customer agrees to release and hold 7 Oil Company harmless from claims related to fire, explosion, flood, freezing, power loss, oil leakage, unattended premises, or fuel run-out conditions.

7. Transfer & Billing

This Agreement is transferable upon sale of the residence. If enrolled in monthly billing, a valid credit card must remain on file to maintain active coverage.

8. Entire Agreement

This Agreement constitutes the entire understanding between the parties regarding service coverage and supersedes any prior oral statements or representations.

Oil Heater Service Agreements

Serving Atlantic, Burlington, Camden, Mercer, Gloucester, Cumberland, and Salem Counties
